

I'm writing in behalf of my local Air 1 station in hopes that it will not be shut down because of new regulations. Air 1 is the only Christian radio station in my local community. It provides me with more than just great music, it also provides support for my Christian lifestyle. In my opinion, it provides education, therapy and the kind of music that promotes values that don't include materialism, sex and the party mentality.

If Air 1 were to be shut down in my area, I'd have nothing to listen to and there would be no other station that provides the service that Air 1 currently does. My community would be at a total loss.

I think Air 1 provides the service of educating my community on how to make a positive difference in the world by supporting the less fortunate and reaching out to our neighbors. It's saved lives and turned people from harmful lifestyles. There is no other station that reaches so many people, that I know of.
